Printing date 14.04.2020

Version number 4

Revision: 14.04.2020

(Contd. of page 1)

#### Trade name: Optosil Comfort

541-02-6 2,2,4,4,6,6,8,8,10,10-decamethylcyclopentasiloxane

#### SECTION 4: First aid measures

· 4.1 Description of first aid measures

- General information No special measures required.
- After inhalation Supply fresh air; consult doctor in case of symptoms.
- After skin contact instantly wash with water and soap and rinse thoroughly.
- After eye contact
- Rinse opened eye for several minutes under running water. Then consult doctor.
- After swallowing

Rinse out mouth and then drink plenty of water.

- In case of persistent symptoms consult doctor.
- 4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

• 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

#### SECTION 5: Firefighting measures

5.1 Extinguishing media

- Suitable extinguishing agents
- CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. Use fire fighting measures that suit the environment.
- · 5.2 Special hazards arising from the substance or mixture
- No further relevant information available.

5.3 Advice for firefighters

- Protective equipment: No special measures required.
- Additional information -

#### SECTION 6: Accidental release measures

• **6.1 Personal precautions, protective equipment and emergency procedures** Avoid contact with eyes and skin.

- Wear protective clothing.
- 6.2 Environmental precautions: Prevent material from reaching sewage system, holes and cellars.
- 6.3 Methods and material for containment and cleaning up: Collect mechanically.

- Send for recovery or disposal in suitable containers. 6.4 Reference to other sections No dangerous materials are released. See Section 7 for information on safe handling See Section 8 for information on personal protection equipment.
- See Section 13 for information on disposal.

#### SECTION 7: Handling and storage

· 7.1 Precautions for safe handling

No special measures required.

Please observe the additional instructions in the product's instructions for use.

 Information about protection against explosions and fires: No special measures required. (Contd. on page 3)

Revision: 14.04.2020

Trade name: Optosil Comfort (Contd. of page 2) 7.2 Conditions for safe storage, including any incompatibilities · Storage Requirements to be met by storerooms and containers: No special requirements. · Information about storage in one common storage facility: Not required. · Further information about storage conditions: None. · 7.3 Specific end use(s) No further relevant information available. SECTION 8: Exposure controls/personal protection · Additional information about design of technical systems; No further data: see item 7. 8.1 Control parameters · Components with critical values that require monitoring at the workplace: 9005-25-8 Starch WEL (Great Britain) Long-term value: 10\* 4\*\* mg/m<sup>3</sup> \*total inhalable \*\*respirable · Additional information: The lists that were valid during the compilation were used as basis. 8.2 Exposure controls Personal protective equipment General protective and hygienic measures The usual precautionary measures should be adhered to in handling the chemicals. · Breathing equipment: Use breathing protection against the effects of fumes/dust/aerosol. · Protection of hands: Check protective gloves prior to each use for their proper condition. recommended Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Penetration time of glove material The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. · For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable: Butyl rubber, BR Nitrile rubber. NBR • Eve protection: Safety glasses · Body protection: Light weight protective clothing **SECTION 9: Physical and chemical properties**  9.1 Information on basic physical and chemical properties **General Information** Appearance: Form: Pasty Colour: Yellow · Smell: Peppermint · Odour threshold: Not determined. · pH-value: Not determined. (Contd. on page 4)
